[QAPP Addendum 01 - Bridgeton Dust Site.pdf](#)
[ATT00001.htm](#)

I sent this addendum to the QAPP to the QA folks yesterday. It has been approved. I am just waiting on the signature page from there shop.

My plan was to post this on the Bridgeton Dust website on [EPAOSC.org](#). I would then let the two property owners that we sampled know that it was there. I have already fully explained the nature of the addendum, so this will not be a surprise to either of them.

I wanted to check in with this group about whether there are any issues with this plan related to the larger community or the Dailey's attorneys.

We don't need to push this out today but I do want to make our change to the QAPP public as soon as possible.

Thoughts?

Tom

Subject: Fwd: Bridgeton Dust QAPP Addendum

After receiving the detection limits from the START contract lab, we had to make a small change to the procedure associated with our collection of swipe samples.

Essentially, we increased the swipe area in order to insure that the sample results would be comparable to our EPA BPRG's.

I have spoken to each of our home owners about this and they are fully aware of this change to the QAPP.

Please see the attached addendum and let me know if there are any questions or comments and if you approve of this modification.

Thanks,

Tom Mahler

Hi Tom,

Attached is a signed addendum for the Bridgton Dust Site QAPP.

Thanks,

Rob
